Disease From Dirty Refrigerator

Disease emanates more frequently from a dirty refrigerator than from any other source.

The safest way is to have a LEONARD CLEANABLE refrigerator. It is the easiest in the world to clean. You can reach every part without any trouble. You should wash out the interior and all removable parts at least twice a week with solution of hot water and borax. By following these directions you will have perfect and sanitary refrigeration, because the LEONARD is the most scientifically constructed refrigerator on the market.

JUDICIARY BUILDING UNSAFE.

(Continued from Page One.)

months at least to get the steel work here which will be required, and also because at that time it will cause the least inconvenience to the courts.

It is proposed to make the building practically fireproof with steel construction and concrete floors. The improvements will also probably be made with reference to future enlargement of the building, as it is only a question of time until wings will have to be extended on the makai side in order to accommodate the business of the building.

Until the new roof is on, and the ceiling made safe in his court room, Judge Lindsay stated this morning that he would try to borrow Judge Weaver's land registration court room, and the other court rooms when they are not being used. He is not holding court today.

WOULD "DR" WALLACH TRY? COMING STEAMERS

DOUBTS AS TO WHETHER HE REALLY WANTS A TEST AND WOULD ACCEPT THE ISSUE IF THE BOARD OF HEALTH OFFERED CONDITIONS WHICH WOULD BIND HIM DOWN TO A REAL TEST.

Will Wallach be given a chance to prove himself a faker in his claims to possess a cure for leprosy? Or will he back down when the Board of Health attempts to pin him down to reasonable conditions in case it is decided to give him a show?

These are questions which were the main topic of discussion after the meeting of the Board of Health yesterday afternoon, and there was a very wide difference of opinion concerning them.

It is pretty certain that had the matter come to a vote at yesterday's meeting, that Wallach would have been again turned down cold, and probably for that very reason Dr. Wayson moved an adjournment of the meeting before the matter could come to a vote.

Wayson is a regular physician, who while openly denouncing Wallach as a liar and a faker, proposes giving him a chance, provided the leaders of the Republican and Democrat parties, as well as the Home Rule party join in requesting the privilege.

Although it is doubtful if a majority of the Board would have supported Wallach yesterday, it seems as though they can scarcely hold out against the general demand that the female rock doctor be given a show. The sentiment of the meeting, however, appeared to be that Wallach's work should be so supervised and the conditions made so explicit that he could have no loophole to crawl out of when he fails to make good.

HOT STOVE, FISH LIQUOR AND BIKE

SOME OF THE CAUSES OF BUSINESS IN THE POLICE COURT TODAY.

Justice moved fast this morning in Judge Andrade's court, and with the exception of the liquor case against Hiral Hide, the cases were disposed of before half-past nine.

The case of reckless driving which the Governor's secretary, C. H. McBride, is charged with, was put over until Wednesday, October 16, at the request of his counsel, E. C. Peters.

Alex. Robinson, one of the gang charged with stealing brass, etc., from the government buildings, was held on the charge of larceny in the first degree, but as the grand jury is taking the matter up today the case was put over until tomorrow morning.

Yee Chung, who tried to carry off a red hot stove from another of his countrymen, was allowed to retain a lawyer in the case, and his case was put over until Tuesday, Oct. 15. J. Vasconcelles, who was charged with assault and battery, had his case put over until tomorrow morning, as he had a number of witnesses to the alleged assault who were not present in court this morning.

K. Yamamoto was arrested yesterday afternoon for riding a bicycle on the sidewalks on Nuuanu street, and was fined \$5 and costs, which he paid. Ah Chai, who was selling fish yesterday without a license and contrary to the rule of the Board of Health, was fined \$15 and costs. As he was unable to pay the fine he will be obliged to stay over with the stone gang for a few days.

The case of Hiral Hide, charged with selling liquor without a license in her store on Nuuanu street, was continued until tomorrow morning. In all the evidence that was given nothing was proved that she had sold sake. The officers in the case could not prove that any money had been passed.

THE NIPPON MARU FROM THE ORIENT

IS IN QUARANTINE AND WILL CONTINUE HER JOURNEY AT TEN TONIGHT.

Toyo Kisen Kaisha Nippon Maru, Captain Filmer, arrived from the Orient early this afternoon, docking at the Hackfeld wharf at 12:20 o'clock. She brought about 100 Japanese immigrants and 490 tons of freight. At 10 o'clock tonight she sails for San Francisco.

There are four passengers for Honolulu. Mrs. H. A. Bradley, widow of Judge Advocate Bradley of the Philippines, comes to wed Mike Patton, the iron-worker and pugilist of local fame. Professor Ladd, who for a quarter of a century was professor of philosophy and physics at Yale, is returning from the Orient and stops off here to lecture. Mrs. F. Saito and M. Bernier are the other Honolulu passengers. There are but fourteen through passengers.

Owing to health conditions in the Orient the Nippon is in quarantine at the wharf.

THIS THE SEASON.

This is the time when a rest is better than medicine and the place to get the rest is where the surroundings are pleasant and agreeable. The appointments at the Halewa Hotel are equal to the best in the Territory and the cuisine what a man needs during either rest or recreation. The bedrooms at this hotel are all mosquito proof so the comfort of the guests is increased. St. Clair Bidgood, the manager, will arrange terms with you.

SAYS WILSON IS STILL IN TOWN

FARM CORNN. BONDSMAN FOR HACK DRIVER, DENIES HIS REPORTED DEPARTURE.

Farm Cornn, who is on the bond of Charles Wilson, charged with procuring, stated to The Star this morning that Wilson had not left the island as stated in the Advertiser this morning.

"I saw Wilson last night," said Cornn, "so he certainly could not have got away on the Hilonian as stated in this morning's paper. I don't think Wilson has any intention of leaving, and as for my having had any understanding with Attorney Cathcart, that is entirely wrong. I have had no talk with Cathcart, and went on Wilson's bond at the request of E. C. Peters."

Cornn did not seem to be at all uneasy about Wilson's leaving, remarking however, that the bond was only \$500.

Bauer, Mrs. Fong Shee, G. Hashidzume, Mrs. Krueger, Mrs. Dr. F. C. Runyon, Miss H. J. Runyon, Master B. Runyon, Mrs. W. M. Shuster and two children and amah, T. Uchida, Mrs. B. Bayanda and amah.

BIG TAX APPEAL

The Supreme Court today, in a decision of which Chief Justice Hartwell is the author, sustained the Tax Appeal Court in the matter of the assessment of the Waluku Sugar Company. The company made a return valuing its property at \$1,700,000. The assessor raised it to \$2,380,000, and on appeal the Tax Court decided the value to be \$2,000,000. The assessor appealed. The court holds that while the lower court might properly have sustained a higher valuation, there is no showing that the valuation was erroneous or based on a wrong theory or insufficient data, wherefore it is sustained.

AT THE ORPHEUM.

The Riverside League will give a grand musical and dramatic entertainment tomorrow evening at the Orpheum, in which an admission of 25c, 50c, 75c and \$1 will be charged. The proceeds will be for the benefit of the league to meet the expenses that have been incurred during the season. W. Vannatta, the president of the league has selected the following members of the league to look after the affair, which promises to be one of the best that ever took place in baseball circles: W. Tin Chong, chairman, M. Gomes, K. Yasumori, Jos. Goo Kim and E. Morino, Jr.

RETREAT WOULD BE COWARDLY.

On the issue presented probably the great majority of thoughtful American people are willing to be classed as "postponers." To get out of the Philippines "as soon as possible" would be to sail away and leave the islands to their fate. The natives probably would not like that. It would be a cowardly and cruel retreat from duty and responsibility--Rochester Democrat and Chronicle.

COMING STEAMERS

A BUSY END OF THE WEEK IN PROSPECT FOR THE WATER FRONT.

This week's end will prove particularly busy in the harbor. The Toyo Kisen Kaisha S. S. Nippon Maru is due this afternoon from the Orient and will sail for San Francisco early tomorrow morning. With daylight tomorrow should come the Oceanic steamship Alameda from San Francisco with three days later mail and a goodly passenger list, and in the afternoon, late, the United States Army transport Sherman should show up from San Francisco with the Eighteenth Infantry en route to the Philippines, stopping here long enough to take aboard about 750 tons of coal. On Sunday the French cruiser Cathart is expected from the Samoan Islands and the Russian steamship Sungari is expected from Vladivostok. It is seldom that Honolulu enjoys direct steamship communication with Vladivostok.

PINKHAM HAS GONE

PRESIDENT OF HEALTH BOARD LEAVES FOR THE LEPER SETTLEMENT.

President Pinkham left this morning for the Leper Settlement at Molokai, and until he gets back which will not be until next Thursday, there will be nothing doing in the matter of Wallach and his backers.

Pinkham stated that he expects to look into the conditions at the settlement carefully especially as to the new infant hospital, and quarantine hospital now almost completed. In connection with Wallach's hint that the President of the Board of Health would be in danger of assassination at the settlement, and therefore was afraid to go to Molokai, Pinkham said this morning that he guessed he has as many friends at Kalaupapa as Wallach has, and that he won't need any bodyguard during his stay at the place.

The matter of the petitions to let Wallach treat leper patients, which caused so much hot air yesterday in the meeting of the Board of Health, and which was laid on the table until another meeting to be called by the President, will probably come up again soon after Pinkham returns.

SCAREY RUMOR

WHO STARTED THE REPORT THAT ENGINEERS WOULD LOSE THEIR JOBS?

Among certain gentlemen on the waterfront there is something akin to consternation, for the story has started, without any apparent basis in fact as far as can be ascertained from those who ought to know, that General Manager J. A. Kennedy of the Inter-Island Steam Navigation Company, who left for the mainland the other day to extend his travels to Scotland, is going to bring back with him about ten or a dozen engineers to man the local inter-island boats.

"He can't do it, you know," said one of the inter-island men this morning. "It is against the law which provides against contract labor."

"He won't contract with them," said another, who may have been responsible for starting the yarn, "he will advance them money for their passage to Honolulu and they can pay it back when they get here."

It is well known, since it was exclusively published in The Star the other day, that Kennedy is going to arrange for a complete system of mechanical coaling and this may have been misinterpreted to the extent of giving ground for the story that he was going to get engineers, when, as a matter of fact, he is probably merely going to consult engineers, and not steamboat engineers, in regard to this mechanical arrangement; besides the engineers aboard the inter-island boats are all thoroughly competent men and are satisfied with their work, except one, perhaps, who has applied for the job of second assistant engineer aboard the Lusitania.
